EDUCATION

BSc (Hons) Computer Science and Information Technology

Dorset College, Dublin

📅 2020 - 2023

Modules: Java Programming | C# Programming | Software Engineering | Object Oriented Programming | Artificial Intelligence | Machine Learning | Cyber Security | Back End | Devops | Games Programming | Database Systems

CERTIFICATIONS

- Web Development - Udemy
- Node.js - Udemy
- JavaScript - Udemy
- Data Structures & Algorithms - CodeWithMosh
- C# - CodeWithMosh

TECHNICAL SKILLS

Node.js | React | Express | MySQL | C# | JavaScript | React Native | Amazon EC2 | Amazon ECS | HTML | CSS | Git.

WORK EXPERIENCE

Software Developer Freelance

Kendra

📅 Feb 2023 – Current

📍 Dublin, Ireland

Kendra Civil Engineering delivery Power, Water and Telecommunications projects.

My role included:

- Develop a web and mobile application with React - React Native - Node.js -Express - MySQL. The software creates a form that once it is filled out with staff attendance and site setup, which includes location and coordinates from Google Maps API, converts the whole form to a PDF that can be download through the application.

CODING PROJECTS

- Form2PDF - Node.js/Express/React/MySQL app that converts forms to PDF.
- Seeking4Sports - Node.js/Express/React/MySQL app that gathers people to play sports.
- GetAPet - Node.js/Express/React/MongoDB app that allows people to adopt pets.
- RoboFriends – React app that renders robots from an external API.
- MaptY - HTML/CSS/JavaScript app that create workout activities for cycling and running, using a map library from leaflet.js.
- SmartBrain – React app that uses a third-party API that recognizes faces on an uploaded image.

INTERESTS / HOBBIES

I participate in team sports such as Football Games. I enjoy travel, playing online games, cycling, and surfing. Holder of full driving licence.
